

## ALBERTA'S BEST BRONCO BUSTERS COMING TO GEM

Annual Stampede Stated for Next Wednesday, July 30—Full Day Program of Entertainment With Dance at Night

GEM, July 23—Some of the best bronco busters in Alberta will be seen in action at the Gem Stampede Wednesday of next week, July 30. The winners from High River, and many, many other top-notch riders.

A collection of wild-eyed broncos has been gathered to test the skill of the mounted saddle kings, and some thrilling exhibitions of horsemanship are in store for the on-lookers who go to Gem.

The day's program includes many fine horse races including some for the Indians and the boys and girls.

A basketball game has been arranged between the girls' team of High River and the Gem girls team. The younger children will take an active part in the day's program when boys' and girls' foot races and other events will be held in the forenoon.

The ladies will operate a refreshment booth on the grounds, and the hungry and thirsty may come here for hot dogs, coffee, cold drinks and ice cream.

The dance at night in the school will conclude the program. A special orchestra under the leadership of J. Lavie will provide the music, and refreshments will be served by the ladies at the counter.

**District News**  
Miss Lucy George spent a pleasant week in Millfield with her aunt.

Mrs. Fryberger Sr. and P. A. Fryberger arrived in Gem on Tuesday morning from the States. They are visiting Mrs. Pottery.

Mrs. Tom Evans and son Jack visited with Mrs. Wm. Caldwell.

Colin Douglas spent a week at Carleton Place Agricultural College, returning last Saturday.

Myrtle Pollock and Ruby Selridge came home last Saturday. Myrtle was at Carleton Place attending the special course in the Agricultural College, and Ruby was visiting in Calgary with Mrs. Warren.

Mr. McKay, bail administrator, was in the Colony on Tuesday.

Mr. and Mrs. Ed Jahraus, of Medicine Hat, have moved back to Gem. They are now living in a house on the new Gem townsite.

Mr. Martin is enjoying a visit from his mother and sister, of North Ita-

## Countess

COURTESY, July 24—Grace, and Vera Ferguson are spending a month with their aunt at Wintering Hill. Mr. Cowan, of Medicine Hat, spent a few days with his son Harry Cowan last week.

A. Matlick, Royal Burrows, and M. H. Gamble were in Bassano Thursday for the horse sale.

Mrs. Royal Burrows and children, and Mrs. E. H. Held and Mary were visitors at the Gamble home Monday.

A. M. Anderson returned on Monday after a holiday spent at Calgary and Lacombe.

The Sunday school picnic will be held at the grave on H. P. Ferguson's place Saturday, July 26. Please bring a picnic basket.

A number of Countesses attended the U. F. A. picnic Wednesday.

Mrs. M. H. Gamble and the girls, Mrs. Shes and Mrs. Sheddell, were guests at the Newman home on Friday afternoon.

Jean Gamble and Alice Pottery, of Gem, spent the night with May Held last Wednesday.

## New Theatre Nearly Ready For Opening

Delay in Arrival of Talking Picture Equipment Causes Postponement of Opening Date

Bassano's new picture theatre is not almost ready for opening, states P. Utherin, theatre owner and manager.

The only thing which is necessary to complete the theatre is the talking picture equipment. This has been delayed, and Mr. Utherin expects to receive word at any hour that the equipment has been shipped.

Remodelling of the building, the Jagan Block, adjoining the Royal Bank on the west, has been completed, the decorating and painting is finished, the chairs installed, and also the projecting machines in the operating room.

A shopping floor has been built in the theatre, and there will be a skating rink on the site in Alberta.

When completed, with talking pictures installed, Bassano's theatre will be far in advance of any theatre in a town of this size in Alberta.

Mr. Utherin has not yet decided on a name for the theatre.

He was named by Phyllis and friends visited Mrs. Maguire last Friday.

## RAYMOND GAYFORD VICTIM OF FATAL AUTO ACCIDENT

Car Left Road and Crashed Into Telephone Pole—Alain Yule and Jakey Bulmer Injured

Raymond Gayford, son of Mr. and Mrs. F. Gayford, of Bassano, was killed Friday July 21 about midday when the car which he was driving veered off the road and crashed into a telephone pole.

Alain Yule and Jakey Bulmer passengers in the car, received cuts and injuries which required medical attention. Both are recovering nicely.

The accident happened about three miles north of Gleichen on a straight piece of road. It is not quite clear just what happened, but it appears that the travelling car, first spotted by Raymond kept to the left side of the road in an endeavor to avoid dust stirred up by a car just ahead of them. It was some time before the car containing the three young men swung to the left of the road, jumped an irrigation ditch and crashed into a telephone pole.

The three young men left Bassano to attend a dance in Gleichen, and they travelled in a light Ford delivery car owned by R. E. Pottery, employee of Raymond Gayford. They were accompanied by J. A. Brown and Miss Cecilia Raye and Mable Bell in another car.

The learners there was no dance at Gleichen the two cars started for Strathmore, the J. A. Brown car ahead.

One of the occupants of Brown's car observed that the car behind had met with an accident, and they returned at once to give assistance.

Raymond Gayford was dead, and from the nature of his injuries he must have died instantly.

The party all returned to Gleichen in Brown's car, and the coroner was notified and medical attention given to Alain Yule and Jakey Bulmer.

Raymond Gayford was born in Clerton on Sea, England, and he was 21 years of age. He was a young man of high calibre, possessing many splendid qualities. He came to Bassano with his parents and brothers eleven years ago, and he attended Bassano public and high schools. For the past two seasons he was one of the regular players on the senior hockey team, and before that he played with the junior hockey team. His friendly and cheerful disposition was for him the nickname of "Happy," and by this he was known to everybody.

The funeral service will be held Sunday afternoon July 26 at 3:00 o'clock in the Anglican Church, Canon R. D. Harrison conducted the service.

A very large number of friends attended the funeral, and many beautiful wreaths of flowers covered the casket.

**J. A. BROWN FINKED FOR RECKLESS DRIVING**

As an aftermath of the fatal auto accident last Friday, J. A. Brown, of Bassano, was charged with reckless driving. He was fined \$10 and costs, and his driver's license was suspended for one month.

Brown was driving his own car at the night of the accident, and immediately behind him was following the car which left the road and crashed into a telephone pole.

**Ship Develops Remarkable Speed and Speeds Wonderful Climbing Powers**

The Bassanokhik airplane, owned and flown by Mr. A. C. Scott and W. E. Sambooke, aroused the envy and admiration of every pilot and mechanic, and of every layman, wherever it goes.

At the air fair in Regina the silver-winged monoplane was the centre of attraction, not only because of its beauty and speed, and the fact that it is a private ship, but because of its splendid performance in the air. In the air it flew in Regina the Bassano plane was first place in the altitude contest against a field of strong competitors. There were no distance races, and if there had been it is predicted that the Bassano ship would have shown a clean pair of heels in the field, for the plane develops a remarkable speed for its size and power.

Irvin Hecker, pilot of the Great West Airways, Calgary, has been in Bassano for the past couple of weeks looking up the air and the testing out the plane. He piloted the machine to Medicine Hat on Wednesday of this week and was accompanied by Mr. Scott. There were no contests at the air field in the Hat, but the ship was put through her paces and aroused the admiration of the air men and the large crowd of spectators as it did in Regina.

Bill Sambooke is now a qualified pilot and on his solo in the Bassano. Dr. Scott has been unable to devote much time to flying this summer, and still has considerable time to put in before he can get his pilot's license.

## Empire Games at Hamilton

Hamilton, Ontario, will be the centre next month of the British Empire Games to which athletes from all the Dominions and the British Commonwealth will flock. W. Beatty, chairman and president, Canadian Pacific Railway, is chairman of the national committee of the A. A. U. of Canada for the Games, and has promised by the committee from Australia, New Zealand, Africa, British Crown

Colonies, the Irish Free State and Northern Ireland, while a strong and full British participation at this notable sports gathering of the British people. Canada will, of course, be very fully represented, and will have practically every province and its outstanding athletes.

The Games are scheduled to be held August 16-23.

**Louis Conn's Store Entered By Thieves**

Some Goods Also Stolen from Bulmer's Store When Thieves Broke Through Window and Reached Through Protecting Bars

Breaking in by way of the transom over the front door, thieves hoisted the store of Louis Conn, Bassano on Tuesday night or early Wednesday morning this week.

They made away with clothing, shoes, and other merchandise. The proprietor estimates his loss at about \$500.

The same night, and probably the same thieves, broke a window in the rear of Bulmer's Store. The window was protected by bars on the inside, and finding they were unable to get in the store, the thieves reached through the bars and stole a quantity of canned goods that was within arm's reach.

**BASSANO PLANE GAINS PRAISE OF AIR CRITICS**

Ship Develops Remarkable Speed and Speeds Wonderful Climbing Powers

The Bassanokhik airplane, owned and flown by Mr. A. C. Scott and W. E. Sambooke, aroused the envy and admiration of every pilot and mechanic, and of every layman, wherever it goes.

At the air fair in Regina the silver-winged monoplane was the centre of attraction, not only because of its beauty and speed, and the fact that it is a private ship, but because of its splendid performance in the air. In the air it flew in Regina the Bassano plane was first place in the altitude contest against a field of strong competitors. There were no distance races, and if there had been it is predicted that the Bassano ship would have shown a clean pair of heels in the field, for the plane develops a remarkable speed for its size and power.

Irvin Hecker, pilot of the Great West Airways, Calgary, has been in Bassano for the past couple of weeks looking up the air and the testing out the plane. There were no contests at the air field in the Hat, but the ship was put through her paces and aroused the admiration of the air men and the large crowd of spectators as it did in Regina.

Bill Sambooke is now a qualified pilot and on his solo in the Bassano. Dr. Scott has been unable to devote much time to flying this summer, and still has considerable time to put in before he can get his pilot's license.

## Hussar News

HUSSAR, July 23—On Tuesday evening the Hussar Baseball team met the Standard team and won the game with four runs to one. The game was intensely interesting as the score was one to nothing in favor of Standard up till the eighth inning.

There was a heavy thunderstorm north and east of Hussar on Tuesday night.

The U. F. A. and the Hussar Board of Trade will put on a program and dance in the Community Hall on Friday evening, August 1, in honor of the Hussar young people who represented the village at different points this summer. The guests of honor will be Roy Hazeland and Reuben Snellings, who were among the young judges at the Calgary fair; Woodrow Elliott who attended the recent short course in the Old School of Agriculture; Cassel Williams and Isabel Dundas who attended the W. I. Girls Club convention, and Margaret Bell and Raymond Kelly, who had school fair scholarships for the short courses at Carleton Place School of Agriculture.

A number of members of the U. F. A. charged the men in order to defray expenses. Everyone in the community is invited to be present, young people. Let's make this an occasion never to be forgotten; Friday, Aug. 1.

Mr. and Mrs. W. H. Moffat, of Jessamine and Anna Margaret, and Misses Lois and Dorothy Nelson, visited to Arrowwood on Sunday.

Miss Lois Nelson remained to attend the young people's camp for the week, and Loren Moffat and Gordon Reeves, who spent the preceding week in the boys' camp there, returned with them.

Mr. and Mrs. A. C. Clifard, of Mrs. A. Anderson and Mrs. Montgomery motored to Standard on Tuesday morning for the ball game.

Mrs. W. H. Moffat, the Misses Zena and Margaret Bell, Evelyn and Lila Clifard, and Ivan Anderson, Osborne Holland, and the Misses Mabel and Bergholm Holland also attended the ball game.

The W. I. Girls Club plan to camp at Crawford's track beginning August 2.

The men of the village are getting ready for the season from the soft ball games on open evenings. Everybody is playing.

After several weeks of inactivity the Hussar Intermediate baseball team operated here on Friday night against the Standard ball team, and lost the game. Standard getting two runs to Hussar's three.

P. E. C. Fry was umpire, P. A. MacKinnon was umpire, and E. J. Bell scorekeeper. Keen interest was shown in the game, and there was a large crowd of spectators.

Preparations are being made for the W. I. convention of the Bow Valley constituency to be held in Hussar on July 25.

A beautiful and most welcome rain fell on Saturday. Everything is again taking on a new lease of life. The fields and fields especially, and the trees are looking green and fresh.

Mr. and Mrs. C. Bowerman and children motored over from Birchton on Thursday to visit with Mr. and Mrs. C. Hall and Mrs. and Mrs. J. Dundas.

Mr. and Mrs. F. R. Reeves and A. Mathewson motored down to Arrowwood on Thursday to visit the boys in camp there.

Mrs. Reeves left on Saturday for Vancouver.

**Colored Ball Team To Play Bearcats**

The Chicago Athletics, one of the colored baseball teams that are now touring Canada, will play the Hussar Bears at the Bassano baseball park next Tuesday evening, July 29th, at 6:30 o'clock.

The Bassano team has been trying for some time to arrange a game with the colored team which is very much in demand all over southern Alberta. They succeeded at last in booking a game for July 29.

The colored ball team play a snappy brand of baseball, but it is not anticipated they will have as much of their own way, for the Bearcats will field a strong team, and Bassano's powerful batting aggregation will be hard to pitch to.

Medeobrook will play a league game here on Sunday, July 27.

## HEAVY RAINFALL IMPROVES THE CROP OUTLOOK

Bassano Gets 1.27 inches of Rain—Farmers Harvesting Rice

The heaviest rain experienced in the district this year fell last Saturday, July 19. The rain commenced with the early hours of the morning, and fell steadily for about 15 hours. Grain fields were soaked, and in some places roads were flooded and rendered well-nigh impassable.

Had it arrived two weeks earlier the rain would have been of immense benefit to the crops. The measured moisture was most welcome anyway, and will greatly help in filling the grain and in stimulating the growth of grass in pastures. The crops in the irrigated areas have greatly benefited by the moisture.

The following figures are taken from the readings on the C.F.R. D.M.R. rain gauges, and show the amount of precipitation at these points:

Bassano ..... 1.27 inch  
Hussar ..... 1.43 inch  
Standard ..... 1.33 inch  
Arrowwood ..... 1.99 inch

Farmers who have been waiting are now busy cutting that crop. On the average the rice crop is poor, but there are some fields that will give a fair yield, although too late to reverse the effects of the hot winds. E. F. Maier has almost finished cutting a field of rice about two miles north of Bassano. He estimates it will yield about 15 bushels to the acre. This is the best looking rice crop reported.

The rain last Saturday set back the expected date of wheat harvesting. Combining of wheat is not expected to start for about three weeks. Although too late to reverse the effects of the hot winds, E. F. Maier has almost finished cutting a field of rice about two miles north of Bassano. He estimates it will yield about 15 bushels to the acre. This is the best looking rice crop reported.

Most wheat fields on non-irrigated land are very patchy, with the high ground showing a very poor sample of grain, and the low reaches having a fair stand. A number of farmers in the vicinity of Bassano expect to get about 10 bushels to the acre.

**Irrigated Crops Good**  
Good crops of grain and feed are to be seen on irrigated land. Wheat fields are looking green, where they are not affected by the hot winds. Farmers have cut the first crop of alfalfa hay, and the yield is good.

**Thieves Force Entrance Into Rosemary Store**

Got Small Amount of Cash—Other Interesting News of District

ROSEMARY, July 24—The store of Joseph Chalot was robbed Tuesday night when thieves entered by way of the windows. They secured the cash register, taking it across the street, and then they entered the store and made away with a small amount of change.

Mrs. Tanguay entertained the Ladies Social Club at her home on Thursday afternoon. The ladies were present, each answering the roll call with a household hint. President Mrs. Norton being about the age of Mrs. C. conducted the social. Pres. Mrs. Young. The social hour was spent playing whist, which was much enjoyed. Mrs. Simmons winched first prize.

Little Walter Stahl had the misfortune of being kicked in the face by a colt Tuesday afternoon, receiving a broken jaw. He was taken to Bassano for treatment.

Mr. and Mrs. W. J. Park and family are spending their vacation at Victoria, Mr. Long, of Brooks, has taken Mr. Park's place.

**BEST ROOM FURNISHED**  
The ladies' rest room in Jimmy Pearson's new service station is now furnished and decorated.

Send  
Garland  
back to  
Ottawa

## USE GOOD RECIPES MAKES A COOK FAMOUS

A crisp colonial salad is one of the touches that makes summer meals appetizing no matter how hot the day. It is appreciated equally by the family coming home from business and by the guest who shares your hospitality. Summer entertaining is simplified in this manner. If you are fortunate in possessing a refrigerator in which this may be prepared, try it.

**Frozen Cheese Salad**  
Cream 14 packages of cream cheese with a fork until soft. Add quarter cupful each chopped green pepper and toasted almonds, one-eighth teaspoonful paprika, one-eighth teaspoonful salt, and 2 teaspoonfuls lemon juice, then add one-quarter cupful cream beaten stiff. Pack solidly in freezing tray and spread until smooth to a thickness of three-fourths inch. Chill until firm enough to cut. Cut into small squares and serve on slices of tomato arranged on lettuce, garnish with mayonnaise. Serves 6. If three squares are used for each salad.

**HOUSE FOR RENT** Furnished, if desired; 5 rooms, large cellar, for name, electric. Apply to A. J. Collier; phone 1306.

**ROOMS** Good, clean rooms for rent, rates reasonable. Apply to Mr. Lane, Bassano.

WORLD HAPPENINGS  
BRIEFLY TOLD

Mr. Rene Howard, British ambassador to the United States, who was granted a honorary on the recent King's Birthday, has taken the title of Baron Howard of Glossop.

Typewriter Ludwig St. Internationally known philosopher and author, died at a nursing home at Salzburg, Austria, after an operation. He was 70 years old.

Canadian shipping companies had the bulk of the wheat business on the Great Lakes last month, according to the report of the Lake Shippers' Clearance Association.

The British Government is highly pleased by the shipbuilding industry agreed to by France and Italy, Premier J. Ramsay MacDonald told a questioner in the House of Commons.

The financial situation among Chicago's 13,000 public school teachers is once more acute. It is a question of time and pay cheques are three weeks overdue. To date, the backing pay amounts to \$5,500,000.

Hundreds of thousands, celebrating 500 years of Massachusetts' history, heard Sir Ronald Lindsay, British ambassador, bringing the greetings of the ancient mother state to the sovereign state of Massachusetts.

G. W. Jones, Canadian expert on taxation, has arrived at Canberra, Australia, at the invitation of the government of the commonwealth, to advise the administration regarding the operation of the sales tax introduced in the budget brought forward recently.

British unemployment figures still are showing upward a government report indicated. The Ministry of Labor announced that on July 7, the total out of work was 1,933,506, a gain of 42,925 over the previous week, and 785,254 more than the same period last year.

## Canada's Gold Production

Production In Canada Now Larger Than That Of U.S.

Canada has certainly been making rapid strides in gold production as compared with the United States, and last year the total production of gold out of Canadian territory was 1,000,000 ounces, larger than taken out of United States. The United States, however, has also reports on production from gold mines in Alaska and in the Philippines Islands. According to mining engineers it is only a matter of a little time when the gold industry in Canada will be producing considerably in excess of what the United States is turning out, because the tendency is for the United States to report a smaller production, whereas many of the principal Canadian properties are gradually reporting a larger output. Twenty-five years ago it was not thought that Canada would overtake the United States in 1909 years, and yet it has been able to achieve it in less than a quarter of a century.

## Made Fortune From Linoleum

Ingenuity Of Englishman Started Him On Road To Wealth

Lord Ashlin, whose amazing fortune was won with thirty and forty millions, owed his wealth originally to his clever father, a tinsmith, says the News of the World. The father was a working house painter who started a little shop in Lancaster, where he combined with his trade a picture-framing business. When his cloth was introduced from America he improved on it by giving it a backing of powdered cork instead of cloth. So linoleum was invented and his fortune made. Lord Ashlin himself worked in his father's factory from an early age and proved a wonderful man of business.

A toad gets his meals by snapping his long tongue out at any insect coming within reach. The end of the tongue is sticky, and few are the insects that can escape its grip.

"Why haven't you written out your lines? I must sit still!"

"But I couldn't write them when I had to sit still, sir," Moustique, answered.

W. N. U. 1847

Will Increase Safety  
In Steel Construction

Electrical Finger "Feels" Strain In Steel When Under Great Pressure

An electrical finger that "feels" the invisible twists and strains in steel under great pressure was described to the American Society of Testing Materials.

The purpose is to increase safety in construction by making under conditions of actual use tests heretofore confined to research laboratories. The device was described by J. P. Shamberger, of Pittsburgh, who said it was designed by J. G. Ritter, of the Westinghouse Electric & Manufacturing Company.

No longer than a human finger, and not much thicker, it bolts to the side of a rail and records the bend like a 100-ton locomotive thunders over. If placed on a curve it will show the side twist of the rail under the locomotive's thrust. It can be laid up on an automobile wheel to detect how nearly bumps come to causing overstrain.

The finger works somewhat like a slide rule being of two parts, which telescope. This telescoping amounts only to the diameter of a tremor or a vibration, that is, something like one-tenthousandth of an inch. Even so slight a motion slides a piece of iron to or from between two sensitized electrical instruments on the finger. These instruments correspond to the sense of touch. They detect the motion of the bit of iron, and with it the distortion which causes the movement. They register this movement by slight electrical changes.

The "nerves" of the finger then come into play. They are plain wires, which carry the slight electrical disturbances to instruments that amplify them into movements an inch long. They can be calibrated in terms of wear and tear.

## Bright Spots At Port Churchill

Northern Port Now Boasts Of Four Lady Residents

Up on the rocky shore of Hudson Bay, Churchill was once a "Woman's Land." For five years, including the winters Mrs. A. Gibson, wife of the Church of England minister, has made the port her home. But this summer Churchill boasts its largest contingent of femininity, four women.

Three new lady residents came north on the Munkeg Limited late in May. They were Mrs. S. Martin, the economist, Smith declared, he visited his father-in-law, Daniel Rooney's house, whereupon his mother-in-law hit him over the nose, drawing first blood, and his father-in-law fired at him twice with a shotgun. The police believe the Rooneys objected to the match.

British airplanes now in regular use carry 22 passengers.

## FASHION

VOITUTIFULLY SMART

A most attractive cotton shantung in "Buddha" yellow coloring that will suit just beautifully and always appear smart and new, and add chic to your summer wardrobe.

Stitching contrast is achieved through rolled, shawl collar of white pique. The turn-back cuffs, pocket flaps and belt repeat the pique. The buttons are yellow with white rims.

The saving by making it a slim straight type with a panel effect at the front which contributes charming length to the figure. Inverted inside at either side of the front provide ample fullness to the hem and yet retain its straight slender lines.

The belt holds the garment closely to the figure, creating the new pinched-in waistline. This belt is made underneath the front and through the bound opening at the right side.

Style No. 3489 can be had in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44 and 46 inches bust. It takes but 2 1/2 yards of 40-inch material with 3/4 yard of 16-inch contrasting to make this one-piece dress for the woman of average figure.

It is equally smart-fashions of men's cotton shirting fabric used in this dress. It is used so advantageously this season for sports frocks. Cut the blouse, belt, pockets, cuffs and collar on the bias for contrasting trimming effect.

Printed pique, lined printed blouse, printed slinky, cut skirts and necked. Handkerchiefs, lawn are lovely ideas for the development.

Pattern prices 25 cents in stamps or coin (coin preferred).

## IMPERSONATES QUEEN VICTORIA

The King and Queen gave special permission for six-year-old Lady Mary Cambridge, shown here, to impersonate Queen Victoria in the court scene at a charity matinee recently in England.

## Grain Stocks Decrease

Grain In Store At End Of June Shows Decrease Of Over Three Million Bushels

Returns received as to stocks of grain in store for the week ended June 27, 1930, show a decrease of 3,277,000 bushels, according to reports issued by the Dominion Bureau of Statistics. Stocks for the week were as follows: Wheat, 13,735,712; Oats, 9,927,331; Barley, 22,638,184; Flax, 512,382; and Rye, 8,241,089, a total of 172,155,598 bushels. Decreases are noted in wheat of 2,241,693; Oats, 356,500; Barley, 3,771; Flax, 38,061; and Rye, 387,411 bushels. For the same week last year the amount in store was 148,620,622 bushels.

Judging By Actions

A California paper reports: "After the economy, Smith declared, he visited his father-in-law, Daniel Rooney's house, whereupon his mother-in-law hit him over the nose, drawing first blood, and his father-in-law fired at him twice with a shotgun. The police believe the Rooneys objected to the match."

British airplanes now in regular use carry 22 passengers.

## International Air Services

Two Million Dollar Companies Will Operate At Pacific Coast

Incorporation of two \$1,000,000 companies to operate international air services on the triangular service between Seattle, Victoria and Vancouver and to other points in British Columbia, is announced by J. A. Campbell, Vancouver barrister.

The new companies will be known as Pacific International Airways Ltd., the latter a holding organization. The companies are both fully financed and capitalized at \$1,000,000. There will be no public issue of stock.

Operation of the airlines will commence as soon as amphibian planes can be obtained. These, if possible, will be produced in Canada, and especially adapted to Pacific coast conditions.

## German Aircraft For Canada

Representative Of The Junkers Aircraft Corporation Visits Dominion

German aircraft builders are well aware of the potential market for machines in Canada, and the Junkers Aircraft Corporation of Dessau, even anticipates assembling certain of its various types in the Dominion. One of the company's representatives is now in Montreal to investigate the situation, and will use one of the Junkers monoplane for demonstration purposes. It is expected that he will remain several months to discuss conditions and prospects with leaders in aviation.

## Consume More Meat

Substantial Increase In The Quality Of Meat Consumed By The Average Canadian

Reports of the Live Stock Branch of the Dominion Department of Agriculture show a substantial increase in the quality of meat consumed by the average Canadian, particularly beef, lamb and mutton. In 1928 the home market absorbed 648,000,000 lbs., while in 1929 it absorbed 676,800,000 lbs. In 1929 the home market absorbed 676,800,000 lbs. of beef, or roughly 2 1/2 lbs. more per capita. The Canadian market consumed 750,000,000 lbs. of lamb and mutton in 1929, compared with 625,000,000 in 1928, an increase of 8,500,000 lbs., or nearly 1 lb. per capita.

## Will Build New Dock

A \$4,000 dock is to be built at Sturgeon Landing, Sask., it was learned following a trip made to the outpost by Engineer Davies, representing the Federal Government. Sturgeon Landing is about 135 miles northwest of The Pas, on the Saskatchewan River water route. Much of the freight taken into the north has gone in through this point.

## A Good Definition

Col. "Pat" Hurley, of Oklahoma, is a lawyer, but his business interest is in oil and real estate. His definition of an operator is: "An oil operator is a man who doesn't know whether he is four feet from \$1,000,000 or 4,000,000 feet from \$4."

A property in Durham, England, is held at the "rent" of three grains of pepper yearly.

## A Girl Fire Warden

Young Californian Guards Hundreds Of Square Miles Of Forest

Most people start at the bottom of the ladder and work up. A young Californian girl, however, says an article in the Young People's section of the London Daily Mail, has an idea as high up as it is possible to get, and is doing her exalted job very well.

She is employed as a watcher for forest fires up in a veritable eagle's seat on the very highest point of Black Mountain, almost 8,000 feet above sea-level, in the San Jacinto range.

From her little log cabin, raised on stilts to give a clear view over the topmost trees, she looks out over hundreds of square miles of forest, signalling immediately when she sees a suspicious column of smoke by day and flickering flame by night.

An Alsatian dog named Mina is her only companion. Food comes up to her on the back of a mule. For water she has to climb some way down to a point where engineers of the Forestry Service dammed up a spring for her.

She admits that she does not like the thunderstorms, when lightning flashes all around her watch post, but declares that she seldom feels lonely, for she was born in a cottage in the mountains and has always been accustomed to their picturesque solitude.

## British Naval Estimates

Additional Estimates Call For Expenditure Of About \$1,600,000

The British admiralty has published additional estimates for naval construction for the current financial year (which 1928-29, about \$1,600,000), is asked. The amount will be used for construction of a new Great Britain under the London treaty.

Of the supplementary estimate, \$151,600 is required for new posts to submarines of the 1929 program, construction of which had been deferred pending conclusion of the naval treaty.

The balance of \$24,000 will be devoted to the new construction program for 1930.

## Oriental Palace In London

House For High Commissioner Of India Is Magnificent

An Oriental palace in the heart of London, for the use of the High Commissioner for India, which was opened by the King, accompanied by the Queen, on the 8th of July, is situated in Adelaide, Indian timber, inlaid with bronze and magnificently wrought, forms the gates, which were formally unveiled by His Majesty with a golden key. The High Commissioner, Sir Atul Chatterjee, and Mr. Wedgwood Benn received the royal party. The carving and the marble in the new India House are superb.

Colorado man has a chicken with only one eye, so in that part of the world there are a few wonders that stand a pedestrian's chance of escaping.

## Long Delayed Work

Has Been Commenced

Memorial To Latin Poet Was Thought Of Century Ago

At the gates of Mantua, in Italy, where Virgil was 2,000 years ago, a park is to be opened in which the memory of the poet may haunt the air as high up as it is possible to get, and in a green shade, as an English poet once wrote.

In this wood are to be planted all the plants and flowers named in the works of the Latin poet. The brown reeds, the silver-leaved willows, will be there. The poplars will whisper in the breeze.

It is the best possible way of commemorating the poet, whose birth is now being celebrated in various ways throughout the world.

A bi-millenary (as we call 2,000 years), does not in itself mean much. What are 2,000 years in the life of an immortal? But what is most interesting about the completion of this wood at Mantua is that the idea of planting it was born 100 years ago, and has been put off by wars and rumours of wars ever since.

The Austrians and the Russians destroyed all the preparations made in 1797, and Napoleon did nothing to revive the idea.

After nearly 100 years the project was revived at the end of the 18th century, but nobody could spare money and the Great War destroyed the project. Now at last it has been revived and promises to come to fruition.

## Empire Trade Extends

Bananas From British West Indies Reach Western Canada

Canadian agriculture is ever seeking new markets, and producers in other parts of the Empire are working toward an extension of the market for those of their products Canada needs. Information received by the Minister of Agriculture at Ottawa shows that during the past year 208 carloads of bananas were shipped into Western Canada from the British West Indies. Word now comes that the first shipment of oranges and lemons from New South Wales reached Vancouver on July 15. Canada reciprocates with her exports of potatoes to the West Indies and with shipments of apples and onions to the Antipodes.

## Why They Are Flying

Air travellers, during a recent period, were asked why they were flying. Out of 568 passengers, 253 were on business, 146 for the "joy ride," 103 because they preferred the air, 53 to visit friends, theatres, etc., 17 on a tour, and only 1 to take part in a sporting event.

The trap door spider covers its tunnel with a trap floor, neatly beveled to fit the opening, and hinged at one side. The door is made of alternate layers of silk and soil.

An "intelligent" perfume filling apparatus has been devised, which refuses to drop any liquid into a bottle that happens to be imperfect.

Television Device  
For Radio

Invention Of Washington Youth Similar To "Radio-Looker"

A television receiver, that can be attached to an ordinary radio set like a loudspeaker, reproducing moving images from electrical impulses transmitted along a wavelength employed for the simultaneous radiocasting of speech and music, has just been patented by a Washington inventor. With the issuance of the patent by the United States Patent Office, an amateur was made that it has been assigned to Wired Radio, Inc.

The youthful inventor's multiples system of television and radiocasting eliminates the scanning disc and all movable parts of the receiver, thereby simplifying greatly the present method of reproducing television images. The receiver is a large glass screen which, when not lighted, looks like a framed window into which longitudinally parallel wires have been imposed. The images move along the wires, which are surrounded by gas that causes them to glow when in operation.

## Grain Via New York

Canadian Exports Constituted 20 Per Cent Of Tonnage Last Year

Canadian grain constitutes 20 per cent of the export tonnage from the port of New York, according to an estimate outlined in the annual report for 1929, of the Port of New York authority. It was pointed out that this Canadian grain earned a gross annual revenue of \$9,000,000 for United States railroads and large canal operators, some of the North Atlantic ports, and furnished from 25 to 75 per cent of the east-bound cargo of steamships operating from the port of New York.

## Outdoes King Of Birds

Flock Of Eagle Raiders Were Annihilated By Airplane

After longing for unnumbered centuries to fly with the wings of an eagle, man has at last even outdone the king of birds. A flock of eagles raiding the sheep ranch near 50 Paso Texas, were annihilated by an airplane with a passenger carrying a shot gun. In eight hours the plane had accounted for nine birds which a rancher has been trying to shoot from the ground for a year.

## White Pine Best For Patterns

White pine is used for 90 per cent of the patterns made in North America. The reasons for this, are, that white pine, more than any other wood, is easily worked, is of soft texture, is comparatively strong, is very durable and, most important of all, has very little shrinkage, which gives it the power to hold its shape indefinitely after being worked.

Sir Harry Lauder's last annual faraway tour of the country, scheduled for 1931, has this distinction: That he will be seen on it by people still living; who saw him on his first.

## Make Your Windows Pay

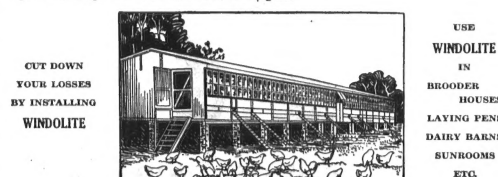

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

## CHAPTER XIX—Continued

"Oh," replied Grandma. "It's for two reasons. One because he felt you didn't understand him; and the other because he cares such a heap more for you, dearie, than you've ever cared for him. I declare, Charman, so long as you don't seem to want the boy yourself, I hope he'll meet some real nice girl out in California, and marry her. He'll look different to a girl who hasn't seen him in short pants, waving barefoot in Father's brook, and who's looked up afterwards in a broken bottle or something—more romantic, maybe."

A reluctant laugh escaped the girl as she arose.

"Well, Grandma, I feel like a criminal, but I suppose we've got to eat. Thank goodness it's been night and everything's ready. You and John will have to play double Canfield this evening instead of bridge. I've got to write to Jim, or I shan't be able to sleep a wink, I feel," she added, turning as she reached the door. "I feel just about one inch high!"

## CHAPTER XX

What all our "Blessed Damozels" these days?"

Grandma and the young doctor were eating their noon-day meal at the kitchen table. Christmas had come and gone, and Wickfield had settled down to the cold, hard, relentless winter months. For three weeks now had fallen at frequent intervals, freezing almost as soon as it reached the ground, so that the mud and sidewalk were packed. Charman had expressed a wish that, despite the cold, they might stay that way till spring because the walk to school was so much easier on the mud now than through the slush and mud that accompanied warmer days. She had refused the offer, saying that she was tired, and feeling vaguely troubled. Grandma had watched her out of sight. Something was wrong.

John Carter's eyes therefore, came as a relief, giving her an opportunity to speak her thoughts. Yet she smiled at his manner of putting it, though the young M.D. had addressed her granddaughter in a like manner many times since a day in August when he had driven into the yard to find her leaning from his own bedroom window, the sun making an aureole of her hair. He had slipped the car directly below her, and stared up in admiration as he said:

"You look like the blessed damozel."

"Her eyes were deeper than the depth of waters stilled at even."

She had three lines in her hand. And the stars in her hair were seven."

"Did you do it purposely?"

Charman, still leaning from the window sill, glanced down at the golden lines in her hand, and answered:

"Not guilty. As you perceive, I have had a shampoo. I went into the bath."

"Her eyes were deeper than the depth of waters stilled at even."

She had three lines in her hand. And the stars in her hair were seven."

"Did you do it purposely?"

Charman, still leaning from the window sill, glanced down at the golden lines in her hand, and answered:

"Not guilty. As you perceive, I have had a shampoo. I went into the bath."

"Her eyes were deeper than the depth of waters stilled at even."

She had three lines in her hand. And the stars in her hair were seven."

## Local News

L. Landrum, of Duchess, was kicked by a horse and suffered a broken jaw and bruises. He was brought to the Bassano Hospital for treatment.

A son was born to Mr. and Mrs. N. H. Christensen of Chatham, on Tuesday, July 22, at the local hospital.

A daughter was born to Mr. and Mrs. Miles Clements, of Majorville, on Sunday, July 20, at the Bassano Hospital.

### ISSUE RULES FOR FARM PROSPERITY

OTTAWA, July 23.—The following rules have been formulated by agricultural experts here as an aid to better and more lucrative farming: (1) Farm because he loves it; few people succeed in doing things they are not interested in.

(2) He should adopt a sound financial policy in his individual farm operation, and investment of any surplus funds which he accumulates should be in securities which can be converted quickly into cash when needed. Corporations or business men usually invest their surplus funds in good stocks and bonds not necessarily allied with their own business, with a daily market value so they can be immediately converted into cash if needed in their business. Farmers, when possible, should follow this principle.

(3) Plan his work; keep in close touch with his provincial agricultural college, experiment station, and county agent.

(4) Have his soil analyzed and cultivate only productive land; base his production on demand as near as possible, and produce quality products.

(5) Join with his neighbors in organizing a co-operative marketing association through which to sell his products because in union there is strength.

### CHAWWING VALLEY NEWS

Mr. and Mrs. J. W. Robbins and Mrs. R. Robson were Bassano callers last Thursday.

Hall did considerable damage in this district last Thursday.

Mr. and Mrs. W. R. Whitney made a trip to Brooks one day last week. E. J. Currie made a trip to Trochu on Saturday.

Mr. and Mrs. Roy Robson entertained at dinner guests on Sunday. Mr. and Mrs. Ralph Robson and family and Miss Gladys Portney, of Glen; Mrs. Evelyn Jones and son and Mr. and Mrs. Billie Hays and daughter of Beynon, and the Ferguson twins of Countess.

Miss Vivian Currie is visiting in Hussar.

### Self Hoiled

"Where did you get those big, tender, sympathetic eyes?" she cooed. "Oh," replied the sailor, "they came with my face."

### Re-splashed

He (chugging about ancestry): "Yes, my father sprang from a line of poets."

Bored Listener: "Did he drown?"

KNOX PRESBYTERIAN CHURCH

3:00 p.m. — Community Service at Lathum. Sunday School preceding Service.

Everybody Welcome

## Here and There

(551)

A new queen of the Pacific will pay homage August 24 to a former Empress of the seas when the Canadian Pacific liner Empress of Japan, now 26,000 ton flagship of the company's Pacific fleet, steams through the Narrows to receive Vancouver's vociferous applause. Just before reaching the strait, the new Empress, gay with flags and bunting, will dip her ensign to the dragon-carved figurehead which rests on its pedestal in Stanley Park overlooking the waters of Burrard Inlet. The figurehead is the old Empress of Japan, scrapped and sold in 1922 after 31 years of service between Canada and the Orient.

Impressively simple ceremonies were held at Port William recently for the late P. E. Trautman, for the past 15 years Canadian Pacific Press representative in Western Canada. He was buried in the city where a large part of his career as a pioneer western newspaperman was passed as editor of the Port William Times-Journal. The office of Port Arthur and Port William were officially represented as was also the railway company while a large number of private citizens paid their last respects.
